insolvency profession

I started my insolvency professional practice in Nov'2017 post getting registered with Insolvency & Bankruptcy Board of India.

As an Insolvency Professional ("IP") I am poised to handle the smallest of insolvent companies or dealing with large corporate restructuring, with all sizes of cases in between. This also includes running businesses, looking for resolution applicants or investigating and advising on the viability of a business and its restructuring.

I understand that the work of the Insolvency Professional ("IP") affects the lives, prospects and livelihoods of both creditors and debtors. Insolvency work is as much about people as it is about figures. IPs need the skills to deal with angry creditors, anxious stakeholders and distraught employees.

The insolvency scene is always changing because of legislative changes, various judgements and the changing approach of creditors therefore positive and proactive approach can rescue the business.
